

NTI Packet

You may choose one option per NTI day, you do not have to do them in order!

1 NTI Day = 1 project

- (1) Create a poster presentation on the dos and don'ts of WORKPLACE ETTIQUETTE. Poster must include a chart of dos (with explanations), a chart of don'ts (with explanations), visual aids, and scenarios! BE DESCRIPTIVE!
- (2) Write out a skit for a commercial to promote our Playschool Program. Skit must include descriptions of our schedule, routines, expectations, lesson plans (with development areas), and healthy snack selections.
- (3) Sketch a bulletin board promoting FCCLA. It must be colorful, visual, and meaningful!
- (4) Create a community involvement plan for FCCLA. Create an idea, brainstorm ways to implement the idea, make a list of needed resources to carry your plan out, and describe the need for your plan.
- (5) Have a fashion show (literally)... go through your closet and find 5 outfits (from head to toe... including shoes, jewelry, hair, and makeup (ladies)) that are appropriate for an interview! Have someone take a picture of you in your attire, create a digital collage, email Mrs. Hamilton the collage with a paragraph explaining your wardrobe choices! Only one paragraph total!
- (6) Create a collage illustrating various dangers for babies and toddlers! Many of our regular household items are proven to be very hazardous to children! Go through magazines, or the internet, and find pictures of such items. Cut and paste them on a collage.
- (7) Create 3 healthy snacks for children (these must be YOUR creation). Foods must be from various food groups! Also, explain (for each) how you could involve the child in helping make the snack.
- (8) Illustrate a picture that explains the Family Life Cycle - in a circular form. Picture must be in color.
- (9) Create a lesson plan for 3-4 year olds that teaches, or incorporates the following: physical development, social development, emotional development, intellectual development (including language development), and moral development. After your lesson, please explain where each is promoted within!
- (10) Create a puppet show skit to teach a Kindergarten class the importance of hand washing. The skit should include the reasons behind hand washing, when we should hand wash, and how we hand wash (length of time, etc.). Be sure your skit is age appropriate so that your target audience can understand the message!

****PLEASE LABEL EACH AS OPTION 1, 2, 3, ETC. WHEN YOU TURN THEM IN!**
